NEWS GATHERED FROM VILLAGE OF BEAUTIFUL HOMES

Mr. and Mrs. Peterson are about to remove to Alamda County.

Miss May Casey and a young lady friend from San Mateo departed for LosAngeles last Tuesday to spend their annual vacation.

The beautiful two story building of J. H. Bell of Fair Oaks was destroyed by fire last Tuesday. The origin of the blaze is not nnown. The loss was partly covered by insurance.

The eight months child of Mr. and Mrs. James Carroll died after a brief illness. The interment took place in Holy Cross Cemetery Wednesday. Mr. and Mrs. Carroll have the sympathy of the community in their sad bereavement.

Twenty-five young society people of San Francisco have occupied Glenn Eyre for four days beginning with July 3rd. They were chaperoned by Miss Nichols eldest daughter of Bishop Nichols.

Professor Ulrici, principal of the grammar school, was united in marriage in San Jose on Wednesday to Miss Chappell of the Garden City. She is a charming young woman and a relative of Mr. and Mrs. Chappell of this place. Both were present at the wedding ceremony.

T. A. Casey the well known shoe dealer won $1000 in the Little Louisanna Lottery the drawing for which took place on June 29th. Mr. Casey went to San Francisco Wednesday morning and received the money. His many friends are congratulating him on his good fortune. Last year the capital prize of $7,500 was won by John Felix who then resided here.

Miss Curtiss the beautiful daughter of Mrs. Walter Linforth, will be married shortley to a well known San Francisco young man.

Last week the Stices of Quolitta Park gave a moon light party to several friends and neighbors. It was a delightful affair.

Doctor Whitewolf has returned from Goldfields where he has been for the past month inspecting his mining properties. He speaks in glowing terms of the prosperity of that famous mining town.

The Northeimer Mining Company, composed of local and Palo Alto people has appointed Theodore Vandervoort superintendent of the mine and he left Thursday and has taken charge and will run a night shift as well as day. The company has a prior right on the water course adjoining their property which consists of a hundred acre tract. The recent "Clean-up" ran close on $100 per day. The "Northeimer" has been a producer for twenty years and has made several men rich. The local owners have great hopes in the new venture and expect great things from the "Northeimer."

At the communion service of the Presbyterian church June 30th one young man was received into the church by baptism and confession of faith. Church services, July 7th, at 10:30 a. m. and 8 p. m., Sunday school at 11:30.

Thursday the Presbyterian Sewing Circle met with Mrs. C. Hazlehearst. Refreshments were served and a slight token of remembrance was sent to Mrs. Dr. Steen.

George Cross, the section foreman here for some time past, has gone East and his position has been filled by Dan Harrington who formely held the place.

Medical science has taken a new tack. It will b e remembered that two months ago a brakeman had his leg severed from his body at the knee while switching cars at the freight depot. He was taken to the Railroad hospital at San Francisco and section foreman Cross ordered to to bury the limb. He burried it as he found it with the shoe on. The young man's wound failed to heal and this puzzeled the doctors at the hospital. Monday they ordered Cross to take up the leg and remove the shoe. He was assisted in doing the work by Conductor McIntyre who was on the train that ran over the unfortunate young man. The doctors arenow confident that the wound will heal at once. This is something new to the medical profession.

S. T. Britten has sold his home near the Sacred Heart convent to a Mr. W. Osborn of San Francisco, however it is understood that the real purchaser is Samuel Shortridge, the well-known attorney. This community is rapidly becoming the Mecca for lawyers, Mr. D. Dorn last year purchased a beautiful home adjoining the one bought by Shortridge. Walter Linforth has just completed the erection of a home near the Flood mansion and last Sunday James W. Cochrane was over from Berkeley with a view of purchasing the Colman mansion.

Assessor A. J. Carleton of the Menlo Park Sanitary District has completed the assessment roll and has turned over his books to the Trustees. The total assessment of the district is $1, 795, 895, in increase of $150,000 over last year. The rate last year was 46 cents on every $100 The trustees will meet tonight and will fix the rate which will be under 40 cents.

INTERPRETS FISH AND GAME LAW

No License Required to Whip Streams of the State

In answer to many queries as to whether the new game law, passed by the legislature last winter, requires fishermen to take out and pay for a license, Chief Deputy Warden Charles Voge'sang of the state fish and game commission says:

"Only hunters are required to pay a license, while men of the rod are exempt. The law is plain enough on its face, and it is not necessary to split hairs over its interpretation. If it had been the intention to have fishermen pay a license the law would have expressly stated that fact. The law sets forth 'that every person in the state of California who hunts, pursues or kills any of the wild birds or animals protected by the laws of this state without first procuring a license therefore as provided in this act is guilty of a misdemeanor.' No mention is made of fish or fishermen. The license for hunters is $1, $10 and $25 per year, depending upon whether they are citizens of California, nonresident citizens of the United States or aliens."

The Longer Lasting Washer

You will keep your youth longer, LAST LONGER, if you turn your washday troubles over to this light-running **HORTON** Washer. It will straighten the bent back and drooping shoulders, rest tired arms and limbs, smooth out the WORRIES of washday that are going to make you old before your time if you stick to old-fashioned machines or methods.

This **HORTON** Galvanized Rotary Washer is a new kind of washer. It is geared up to run at double speed while you TURN slowly. It will do a heavy washing quickly, with easy work at the wheel, and wash ALL the dirt out of the clothes, for the hot suds are forced through the fabric at high pressure. It is light and easy to handle, to get in or out doors, up and down cellar stairs. The galvanized metal tub is light in weight but stronger than any wooden tub. It cannot leak or "fall down," and always keeps sweet, because it can not absorb water.

For your own sake, you should at least have a look at this machine and see what modern science has done to lighten your household labor. Just drop into a good store and ask them to show you the

the machine that lasts longest owing to its strong, simple construction, and makes a woman last longer by taking the hard work of washday off her shoulders.

Good business sense tells you that every cow should return a fair per cent of profit over cost of keeping. To pay you a good profit the organs of digestion must convert the largest possible percentage of the food into bone, muscle, milk fat, etc.

If every cow, horse, sheep or pig, receives small doses of Dr. Hess Stock Food twice a day with the grain rations, they will pay a larger profit than is otherwise possible. Such medical authorities as Professors Winslow, Quitman and Finlay Dun endorse the bitter tonics contained in Dr. Hess Stock Food for improving the digestion, also iron as a blood builder and nitrates for eliminating poisonous material from the system.

DR HESS STOCK FOOD

Where Dr. Hess Stock Food differs in particular is in the dose—it's small and fed but twice a day, which proves it has the most digestive strength to the pound. Our Government recognizes Dr. Hess Stock Food as a medicinal tonic and this paper is back of the guarantee.

AN ASSIZE OF BREAD.

Mobile's Regulation of Bakeries Early in the Last Century.

In the latter half of the seventeenth and the early part of the eighteenth centuries the regulation of the price of bread by public authority was a familiar principle in the English colonies of America. In New Haven, for instance, the weight of the penny loaf was regulated by law about 1660, and in 1696 the Massachusetts general court also provided a regular assize, fixing the weight of the loaf according to the price of flour. At various times during the first quarter of the eighteenth century the selectmen of Boston likewise performed this duty.

It is interesting, however, to note a survival or perhaps a revival of this principle as late as the nineteenth century in the town of Mobile, a place whose economic history is marked by many peculiar features. After fifty-two years of French, seventeen years of English and thirty-three years of Spanish rule Mobile came under the control of the United States government in April, 1813, and was included in the Mississippi territory. On Jan. 20, 1814, by an act of the territorial legislature the town received a charter of incorporation, and at two meetings of the inhabitants, on March 11 and 14, the municipal government was organized and the charter publicly read in English and in French. The population at this time was composed of French, English and Irish elements. On April 4 following, three weeks after the organization of the municipal government, a "tariff for bakers," or assize of bread, was drawn up by the commissioners (the governing body of the town) and proclaimed in English and in French. This fixed the weight of the loaf for the ensuing month in accordance with the price of flour. Instead of changing the price of bread it was more convenient to make the loaves lighter or heavier as the price of flour rose or fell. On May 2, 1814, the weight of the bit loaf (the bit being a coin worth 12½ cents) was fixed at twenty-eight ounces, and the weight of the half bit loaf was fixed at fourteen ounces.

On July 8, 1815, Mr. Martin, the baker, appeared before the board and paid the sum of $10, a fine inflicted on him for having his bread too light, one-half of which sum was paid to the police officer. On Jan. 24, 1817, a regular scale of weights for the bit loaf was adopted.

Beginning May 3, 1817, the assize of bread was proclaimed weekly instead of monthly, as before, and this system was continued for a little more than two years. The records do not show that the assize was proclaimed after 1819, but the town continued to exercise a control over the business of baking. Every baker was required to procure a license and to register his trademark, which was stamped on his loaves. A public bakehouse was also established and seems to have been managed in the same way that municipalities control public markets, the bakers renting the stalls from the town and being subject to inspection. As late as 1826 in the annual statement of the city clerk the following entry occurs in the statement of receipts during the year: "Sales of condemned bread, $1.87."—Quarterly Journal of Economics.

WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for the People Who Work in Redwood City.

Most Redwood people work every day in some strained, unnatual position—bending constantly over a desk, riding on jolting wagons or cars, doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs.

James E. Brown, contracting painter of No 17 Capp street, San Francisco, says: "A man at my occupation required a good sound back. If that part of his anatomy is weak, lame or aches every move of the brush brings torture. Besides, the ingredients used in my calling act directly on the kidneys and aggravate those organs. The first box of Doan's Kidney Pills brought me such relief that I bought several more and continued the treatment until the trouble disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's, and take no other.
